

General Provisions (40 CFR part 63, subpart A), as well as the specific requirements at 40 CFR part 63, subpart CC. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records. These reports are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities:

Petroleum refineries that are major sources of hazardous air pollutants (HAP).

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart CC).

Estimated number of respondents: 142 (total).

Frequency of response: Initially, quarterly, semiannually, and annually.

Total estimated burden: 614,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$98,000,000 (per year), which includes \$32,600,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates:

This ICR incorporates the burden from both ICR 1692.10 and ICR 1692.12, which detail the additional burden to petroleum refineries from the December 1, 2015 (80 FR 75178) and November 18, 2018 (83 FR 60696) amendments to the rule, respectively. The 2015 rule amendments added new recordkeeping and reporting requirements for delayed coking unit vents, flares used as control devices, and fence line monitoring, as well as additional requirements for storage vessels. The 2018 rule amendments revised the recordkeeping requirements for maintenance vents associated with equipment containing less than 72 lbs of VOC. This ICR accounts for the full burden of the current rule and reflects an increase in burden hours and responses.

This ICR, by in large, reflects the ongoing burden and costs for existing facilities, with the exception of a small number of facilities with reconstructed units that must meet initial compliance requirements. The burden in this ICR accounts for implementation of the 2015 amendments, which have been in effect for more than three years. The previous ICR reflected those burdens and costs associated with the initial activities for subject facilities, such as purchasing monitoring equipment and establishing recordkeeping systems. As such, the capital/startup costs as calculated in section 6(b)(iii) in this ICR have decreased compared with the costs in the previous ICRs (ICR 1692.10 and ICR 1692.12). In the next three years, the ongoing O&M costs for affected existing facilities at refineries from the 2015

amendments have been adjusted to include the O&M costs for pressure relief valves to address API/APEM comments. In addition, this ICR also adjusts the estimated number of Group 1 storage vessels subject to requirements from 9 to 12 for each facility, per consideration of comments by API/APFM in a letter dated February 14, 2019 and confirmed through Agency analysis.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2021-0097; FRL-10091-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Municipal Solid Waste Landfills (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Municipal Solid Waste Landfills (EPA ICR Number 1938.08, OMB Control Number 2060-0505) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through July 31, 2022. Public comments were previously requested via the **Federal Register** on April 13, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 29, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2021-0097, to EPA using <https://www.regulations.gov/> (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

The EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Municipal Solid Waste Landfills (40 CFR part 63, subpart AAAA) apply to existing and new municipal solid waste (MSW) landfills that have accepted waste since November 8, 1987 or have additional capacity for waste deposition, including those that operate as bioreactors, and the landfill either: (1) is a major source or is collocated with a major source; or (2) is an area source with a design capacity of 2.5 million megagrams (Mg) and 2.5 million cubic meters (m³), and emits either equal to or greater than 50 tons per year of non-methane organic compounds (NMOC). In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of any period during which the monitoring system is inoperative. These notifications, reports, and records are

essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: 5900–522.

Respondents/affected entities: Municipal solid waste (MSW) landfills.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart AAAA).

Estimated number of respondents: 1,169 (total).

Frequency of response: Annual, semi-annual.

Total estimated burden: 35,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,290,000 (per year), includes \$11,100 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a small decrease in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to several considerations. The regulations have been amended in the past three years. The March 26, 2020 amendments revised NESHAP Subpart AAAA, NSPS Subpart XXX and EG Subpart Cf to allow affected sources to demonstrate compliance with landfill gas control, operating, monitoring, recordkeeping, and reporting requirements by following the corresponding requirements in the MSW Landfills NESHAP, harmonizing the control requirements across all of the landfill rules. The 2020 amendments removed the SSM requirements from Subpart AAAA, resulting in a decrease in labor burden. The 2020 amendments added a new semiannual wet landfill monitoring report requirement, resulting in an increase in burden. Since the 2020 amendments also added an annual wet landfill monitoring report requirement to Subparts Cf and XXX, the additional burden to Subpart AAAA sources for this report consists of one additional report per year. The growth rate for this industry is low (two new landfills per year), resulting in a small increase in burden. There are no changes in the capital/startup or operation and maintenance (O&M) costs. The labor burden for re-familiarizing with the regulatory requirements each year was increased from 1 hour to 5 hours, so that the labor burden for this requirement is consistent with that of other NESHAPs. These changes resulted in a small decrease in labor burden (hours), and a small increase in labor costs, resulting

in a small increase in costs from the previous ICR.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560–50–P

FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at <https://www.federalreserve.gov/foia/request.htm>. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)).

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Ann E. Misback, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington DC 20551–0001, not later than August 29, 2022.

A. Federal Reserve Bank of Kansas City (Jeffrey Imgarten, Assistant Vice President) 1 Memorial Drive, Kansas City, Missouri 64198–0001:

1. *Elevation Bancshares, Inc., St. Louis, Missouri*; to become a bank holding company by acquiring The First National Bank of Sedan, Sedan, Kansas.

Board of Governors of the Federal Reserve System.

Michele Taylor Fennell,

Deputy Associate Secretary of the Board.
